## Data Bases Available

Texts in Staehle Library of Corrosion, Fracture,  
Failure Analysis (Number of entries as of 6-10-00):

### Books

Alloy groups .....	311
Coatings .....	140
Concrete .....	298
Conference proceedings .....	134
Corrosion fundamentals .....	97
Corrosion handbooks .....	73
Dissertations .....	47
Electrochemistry .....	340
Energy .....	125
Failure and failure analysis .....	280
Fracture .....	97
General engineering .....	187
General handbooks .....	56
Inhibition .....	60
Material science .....	118
Math .....	209
Statistics .....	229
Steam generators .....	195
Stress corrosion cracking, hydrogen embrittlement, liquid metal embrittlement, etc. ....	568

---

**Total texts in Staehle Library  
of Corrosion, Fracture, Failure Analysis ..... 3,564**

---

Staehle library maintains an active data base in  
computer searchable mode, as well as in hard copy in  
chronologically arranged notebooks, for use on  
behalf of clients in the following areas mainly with  
respect to corrosion and degradation. (Number of  
entries as of 6-10-00):

### Articles

Applications .....	1,501
Corrosion Prevention .....	136
Corrosion Testing .....	45
Corrosion Types .....	1,632
Environments .....	1,084
Erosion .....	116
Explosions .....	197
Failure .....	238
Fracture and Stress .....	667
General and Localized Corrosion of Materials ..	4,275
General Aspects of Corrosion .....	195
Materials General .....	4,962
Measurement .....	11
Prediction and Analysis .....	325
Pyrophoricity .....	154
Stress Corrosion Cracking .....	4,100

---

**Total ..... 19,638**

---

**Searches on specific topics from within the Staehle library are available upon request.**
